Journal of Speech, Language, and Hearing Research

Index to Volume 45, 2002

Author Index	1311
Subject Index	1315
Title Index	1320

Author Index

Achenbach, T. M. *See* Rescorla & Achenbach, 45(4), 733–743.

Ahlstrom, J. B. *See* Dubno et al., 45(6), 1297–1310.

Aleksandrovsky, I. V. *See* Formby et al., 45(6), 1285–1296.

Allen, L. *See* Wetherby et al., 45(6), 1202–1218.

Ambrose, N. G. *See* Paden et al., 45(2), 256–267.

Arvedson, P. J. Young children with specific language impairment and their numerical cognition. 45(5), 970–982.

Ashmead, D. H. *See* Tharpe et al., 45(2), 403–413.

Bacon, S. P. *See* Healy & Bacon, 45(6), 1262–1275.

Bacon, S. P., & Opie, J. M. Modulation detection interference in listeners with normal and impaired hearing. 45(2), 392–402.

Baddeley, A. D. *See* Jarrold et al., 45(3), 531–544.

Bailey, E. F., & Hoit, J. D. Speaking and breathing in high respiratory drive. 45(1), 89–99.

Balason, D. V., & Dollaghan, C. A. Grammatical morpheme production in 4-year-old children. 45(5), 961–969.

Ballmer, W. *See* Bosshardt et al., 45(5), 844–857.

Barlow, N. N. See Humes et al., 45(4), 772–782.

Bates, E. See Kohnert & Bates, 45(2), 347–359.

Bedore, L. M. *See* Peña et al., 45(5), 938–947.

Bellinger, D. See Hemphill et al., 45(2), 318–331.

Bender, B. *See* Boutsen et al., 45(3), 469–481.

Bentler, R. A. See Warner & Bentler, 45(5), 1016–1026.

Berglund, E. *See* Eriksson et al., 45(5), 948–960.

Beukelman, D. R. *See* Hustad & Beukelman, 45(3), 545–558.

Boettcher, F. A. Presbyacusis and the auditory brainstem response. 45(6), 1249–1261.

Bosshardt, H.-G., Ballmer, W., & de Nil, L. F. Effects of category and rhyme decisions on sentence production. 45(5), 844–857.

Boutsen, F., Cannito, M. P., Taylor, M., & Bender, B. Botox treatment in adductor spasmodic dysphonia: A meta-analysis. 45(3), 469–481.

Branski, R. *See* Sapienza et al., 45(5), 830–843.

Brinton, B. *See* Jerome et al., 45(4), 700–714.

Brown, K. *See* Verdolini et al., 45(2), 268–281.

Busby, P. A. *See* Dawson et al., 45(4), 789–801.

Cannito, M. P. *See* Boutsen et al., 45(3), 469–481.

Cannito, M. P. *See* Sapienza et al., 45(5), 830–843.

Capone, N. C. *See* McGregor et al., 45(5), 998–1014.

Carpenter, M. A. *See* Searl & Carpenter, 45(2), 282–294.

Catts, H. W., Fey, M. E., Tomblin, J. B., & Zhang, X. A longitudinal investigation of reading outcomes in children with language impairments. 45(6), 1142–1157.

Cavouras, D. *See* Papaeliou et al., 45(2), 311–317.

Cerny, F. *See* Russell et al., 45(6), 1134–1137.

Chan, K. M. K., & Yiu, E. M-L. The effect of anchors and training on the reliability of perceptual voice evaluation. 45(1), 111–126.

Chang, C-J. See Hemphill et al., 45(2), 318–331.

Chang, S-E., Ohde, R. N., & Conture, E. G. Coarticulation and formant transition rate in young children who stutter. 45(4), 676–688.

Chapman, R. S. *See* Miles & Chapman, 45(1), 175–189.

Chapman, R. S., Hesketh, L. J., & Kistler, D. J. Predicting longitudinal change in language production and comprehension in individuals with Down syndrome: Hierarchical linear modeling. 45(5), 902–915.

Charest, M. *See* Leonard et al., 45(4), 744–758.

Chen, M. F. *See* Miller et al., 45(1), 51–65.

Subject Index

Hearing

Nature of Hearing and Its Disorders

Normal Auditory Systems

Across-frequency comparison of temporal speech information by listeners with normal and impaired hearing. Healy, E. W., & Bacon, S. P. 45(6), 1262–1275.
Auditory training induces asymmetrical changes in cortical neural activity. Tremblay, K. L., & Kraus, N. 45(3), 564–572.
Children's recognition of cartoon voices. Spence, M. J., Rollins, P. R., & Jerger, S. 45(1), 214–222.
Lexical and talker effects on word recognition among native and non-native listeners with normal and impaired hearing. Takayanagi, S., Dirks, D. D., & Moshfegh, A. 45(3), 585–597.
Modulation detection interference in listeners with normal and impaired hearing. Bacon, S. P., & Opie, J. M. 45(2), 392–402.
Temporal integration of sinusoidal increments in the absence of absolute energy cues. Formby, C., Heinz, M. G., & Aleksandrovsky, I. V. 45(6), 1285–1296.
Understanding bilingualism and its impact on speech audiometry. von Hapsburg, D., & Peña, E. D. 45(1), 202–213.

Auditory and Other Otic Pathologies

Presbyacusis and the auditory brainstem response. Boettcher, F. A. 45(6), 1249–1261.

Hearing Loss and Deafness

Across-frequency comparison of temporal speech information by listeners with normal and impaired hearing. Healy, E. W., & Bacon, S. P. 45(6), 1262–1275.
Changes in hearing-aid benefit following 1 or 2 years of hearing-aid use by older adults. Humes, L. E., Wilson, D. L., Barlow, N. N., & Garner, C. 45(4), 772–782.
Changes in speech production in a child with a cochlear implant: Acoustic and kinematic evidence. Goffman, L., Ertmer, D. J., & Erdle, C. 45(5), 891–901.
Influence of hearing loss on the perceptual strategies of children and adults. Pittman, A. L., Stelmachowicz, P. G., Lewis, D. E., & Hoover, B. M. 45(6), 1276–1284.
Lexical and talker effects on word recognition among native and non-native listeners with normal and impaired hearing. Takayanagi, S., Dirks, D. D., & Moshfegh, A. 45(3), 585–597.
Listening effort and fatigue in school-age children with and without hearing loss. Hicks, C. B., & Tharpe, A. M. 45(3), 573–584.
Modulation detection interference in listeners with normal and impaired hearing. Bacon, S. P., & Opie, J. M. 45(2), 392–402.
Phoneme recognition and confusions with multichannel cochlear implants: Vowels. Välimaa, T. T., Määttä, T. K., Löppönen, H. J., & Sorri, M. J. 45(5), 1039–1054.
Phoneme recognition and confusions with multichannel cochlear implants: Consonants. Välimaa, T. T., Määttä, T. K., Löppönen, H. J., & Sorri, M. J. 45(5), 1055–1069.
Presbyacusis and the auditory brainstem response. Boettcher, F. A. 45(6), 1249–1261.
Short-term auditory memory in children using cochlear implants and its relevance to receptive language. Dawson, P. W., Busby, P. A., McKay, C. M., & Clark, G. M. 45(4), 789–801.
Spectral contributions to the benefit from spatial separation of speech and noise. Dubno, J. R., Ahlstrom, J. B., & Horwitz, A. R. 45(6), 1297–1310.
Verbal short-term memory in Down syndrome: A problem of memory, audition, or speech? Jarrold, C., Baddeley, A. D., & Phillips, C. E. 45(3), 531–544.
Visual attention in children with normal hearing, children with hearing aids, and children with cochlear implants. Tharpe, A. M., Ashmead, D. H., & Rothpletz, A. M. 45(2), 403–413.

Assessment of Hearing

Psychoacoustics

Across-frequency comparison of temporal speech information by listeners with normal and impaired hearing. Healy, E. W., & Bacon, S. P. 45(6), 1262–1275.
Auditory temporal processing performance of young adults with reading disorders. Walker, M. M., Shinn, J. B., Cranford, J. L., Givens, G. D., & Holbert, D. 45(3), 598–605.
Modulation detection interference in listeners with normal and impaired hearing. Bacon, S. P., & Opie, J. M. 45(2), 392–402.
Spectral contributions to the benefit from spatial separation of speech and noise. Dubno, J. R., Ahlstrom, J. B., & Horwitz, A. R. 45(6), 1297–1310.
Temporal integration of sinusoidal increments in the absence of absolute energy cues. Formby, C., Heinz, M. G., & Aleksandrovsky, I. V. 45(6), 1285–1296.

Diagnostic Audiology—General

Understanding bilingualism and its impact on speech audiometry. von Hapsburg, D., & Peña, E. D. 45(1), 202–213.

Specific Diagnostic Techniques and Approaches

Behavioral

Auditory temporal processing performance of young adults with reading disorders. Walker, M. M., Shinn, J. B., Cranford, J. L., Givens, G. D., & Holbert, D. 45(3), 598–605.

Electrophysiologic

Auditory training induces asymmetrical changes in cortical neural activity. Tremblay, K. L., & Kraus, N. 45(3), 564–572.
Presbyacusis and the auditory brainstem response. Boettcher, F. A. 45(6), 1249–1261.

Speech

Spectral contributions to the benefit from spatial separation of speech and noise. Dubno, J. R., Ahlstrom, J. B., & Horwitz, A. R. 45(6), 1297–1310.
Understanding bilingualism and its impact on speech audiometry. von Hapsburg, D., & Peña, E. D. 45(1), 202–213.

Intervention

Habilitation, Rehabilitation, and Education

Auditory training induces asymmetrical changes in cortical neural activity. Tremblay, K. L., & Kraus, N. 45(3), 564–572.

Changes in speech production in a child with a cochlear implant: Acoustic and kinematic evidence. Goffman, L., Ertmer, D. J., & Erdle, C. 45(5), 891–901.

Listening effort and fatigue in school-age children with and without hearing loss. Hicks, C. B., & Tharpe, A. M. 45(3), 573–584.

Thresholds of discomfort for complex stimuli: Acoustic and sound-quality predictors. Warner, R. L., & Bentler, R. A. 45(5), 1016–1026.

Hearing Aids and Other Prostheses

Changes in hearing-aid benefit following 1 or 2 years of hearing-aid use by older adults. Humes, L. E., Wilson, D. L., Barlow, N. N., & Garner, C. 45(4), 772–782.

A comparison of the speech understanding provided by acoustic models of fixed-channel and channel-picking signal processors for cochlear implants. Dorman, M. F., Loizou, P. C., Spahr, A. J., & Maloff, E. 45(4), 783–788.

Intelligibility of modified speech for young listeners with normal and impaired hearing. Uchanski, R. M., Geers, A. E., & Protopapas, A. 45(5), 1027–1038.

Phoneme recognition and confusions with multichannel cochlear implants: Vowels. Välimaa, T. T., Määttä, T. K., Löppönen, H. J., & Sorri, M. J. 45(5), 1039–1054.

Phoneme recognition and confusions with multichannel cochlear implants: Consonants. Välimaa, T. T., Määttä, T. K., Löppönen, H. J., & Sorri, M. J. 45(5), 1055–1069.

Short-term auditory memory in children using cochlear implants and its relevance to receptive language. Dawson, P. W., Busby, P. A., McKay, C. M., & Clark, G. M. 45(4), 789–801.

Thresholds of discomfort for complex stimuli: Acoustic and sound-quality predictors. Warner, R. L., & Bentler, R. A. 45(5), 1016–1026.

Visual attention in children with normal hearing, children with hearing aids, and children with cochlear implants. Tharpe, A. M., Ashmead, D. H., & Rothpletz, A. M. 45(2), 403–413.

Aging and Binaural Hearing

Spectral contributions to the benefit from spatial separation of speech and noise. Dubno, J. R., Ahlstrom, J. B., & Horwitz, A. R. 45(6), 1297–1310.

Synthesized Speech Comprehension

A comparison of learning curves in natural and synthesized speech comprehension. Reynolds, M. E., Isaacs-Duvall, C., & Haddox, M. L. 45(4), 802–810.

Language

Nature of Normal Language

Language Development

Acoustic patterns of infant vocalizations expressing emotions and communicative functions. Papaeliou, C., Minadakis, G., & Cavouras, D. 45(2), 311–317.

Category-generation performance of bilingual children: The influence of condition, category, and language. Peña, E. D., Bedore, L. M., & Zlatic-Giunta, R. 45(5), 938–947.

Children's recognition of cartoon voices. Spence, M. J., Rollins, P. R., & Jerger, S. 45(1), 214–222.

Concurrent validity of caregiver/parent report measures of language for children who are learning both English and Spanish. Marchman, V. A., & Martínez-Sussmann, C. 45(5), 983–997.

Cultural differences in beliefs and practices concerning talk to children. Johnston, J. R., & Wong, M.-Y. A. 45(5), 916–926.

An evaluation of the facilitative effects of inverted yes-no questions on the acquisition of auxiliary verbs. Fey, M. E., & Loeb, D. F. 45(1), 160–174.

Grammatical morpheme production in 4-year-old children. Balason, D. V., & Dollaghan, C. A. 45(5), 961–969.

Judgments of idiom familiarity and transparency: A comparison of children and adolescents. Nippold, M. A., & Taylor, C. L. 45(2), 384–391.

Lexical diversity in the spontaneous speech of children with specific language impairment: Application of D. Owen, A. J., & Leonard, L. B. 45(5), 927–937.

Methods for characterizing participants' nonmainstream dialect use in child language research. Oetting, J. B., & McDonald, J. L. 45(3), 505–518.

Narrative content as described by individuals with Down syndrome and typically developing children. Miles, S., & Chapman, R. S. 45(1), 175–189.

Picture naming in early sequential bilinguals: A 1-year follow-up. Kohnert, K. 45(4), 759–771.

Predicting longitudinal change in language production and comprehension in individuals with Down syndrome: Hierarchical linear modeling. Chapman, R. S., Hesketh, L. J., & Kistler, D. J. 45(5), 902–915.

Responding to joint attention and language development: A comparison of target locations. Delgado, C. E. F., Mundy, P., Crowson, M., Markus, J., Yale, M., & Schwartz, H. 45(4), 715–719.

Semantic representation and naming in young children. McGregor, K. K., Friedman, R. M., Reilly, R. M., & Newman, R. M. 45(2), 332–346.

Stability of behavioral ratings of children with SLI. Redmond, S. M., & Rice, M. L. 45(1), 190–201.

Validity and reliability of the Communication and Symbolic Behavior Scales Developmental Profile with very young children. Wetherby, A. M., Allen, L., Cleary, J., Kublin, K., & Goldstein, H. 45(6), 1202–1218.

Language Use in Adults

Speech segmentation by native and non-native speakers: The use of lexical, syntactic, and stress-pattern cues. Sanders, L. D., Neville, H. J., & Woldorff, M. G. 45(3), 519–530.

Language Differences and Different Languages

Balancing bilinguals II: Lexical comprehension and cognitive processing in children learning Spanish and English. Kohnert, K. J., & Bates, E. 45(2), 347–359.

Category-generation performance of bilingual children: The influence of condition, category, and language. Peña, E. D., Bedore, L. M., & Zlatic-Giunta, R. 45(5), 938–947.

Concurrent validity of caregiver/parent report measures of language for children who are learning both English and Spanish. Marchman, V. A., & Martínez-Sussmann, C. 45(5), 983–997.

Lexical and talker effects on word recognition among native and non-native listeners with normal and impaired hearing. Takayanagi, S., Dirks, D. D., & Moshfegh, A. 45(3), 585–597.

Methods for characterizing participants' nonmainstream dialect use in child language research. Oetting, J. B., & McDonald, J. L. 45(3), 505–518.

Picture naming in early sequential bilinguals: A 1-year follow-up. Kohnert, K. 45(4), 759–771.

Speech segmentation by native and non-native speakers: The use of lexical, syntactic, and stress-pattern cues. Sanders, L. D., Neville, H. J., & Woldorff, M. G. 45(3), 519–530.

Verbal Learning and Memory

Children's recognition of cartoon voices. Spence, M. J., Rollins, P. R., & Jerger, S. 45(1), 214–222.

Predicting longitudinal change in language production and comprehension in individuals with Down syndrome: Hierarchical linear modeling. Chapman, R. S., Hesketh, L. J., & Kistler, D. J. 45(5), 902–915.

Semantic representation and naming in young children. McGregor, K. K., Friedman, R. M., Reilly, R. M., & Newman, R. M. 45(2), 332–346.

Verbal short-term memory in Down syndrome: A problem of memory, audition, or speech? Jarrold, C., Baddeley, A. D., & Phillips, C. E. 45(3), 531–544.

Language Disorders

Aphasia and Other Adult Language Disorders

Discourse Comprehension Test performance of elders with dementia of the Alzheimer type. Welland, R. J., Lubinski, R., & Higginbotham, D. J. 45(6), 1175–1187.

Story narratives of adults with closed head injury and non-brain-injured adults: Influence of socioeconomic status, elicitation task, and executive functioning. Coelho, C. A. 45(6), 1232–1248.

Language Disorders in Children

Cultural differences in beliefs and practices concerning talk to children. Johnston, J. R., & Wong, M.-Y. A. 45(5), 916–926.

An evaluation of the facilitative effects of inverted yes-no questions on the acquisition of auxiliary verbs. Fey, M. E., & Loeb, D. F. 45(1), 160–174.

Grammatical morphology and perception of synthetic and natural speech in children with specific language impairments. Evans, J. L., Viele, K., Kass, R. E., & Tang, F. 45(3), 494–504.

The interaction of ambient frequency and feature complexity in the diphthong errors of children with phonological disorders. Stokes, S. F., Lau, J. T.-K., & Ciocca, V. 45(6), 1188–1201.

Language and reading outcomes to age 9 in late-talking toddlers. Rescorla, L. 45(2), 360–371.

Lexical diversity in the spontaneous speech of children with specific language impairment: Application of D. Owen, A. J., & Leonard, L. B. 45(5), 927–937.

Lexical organization and phonological change in treatment. Morrisette, M. L., & Gierut, J. A. 45(1), 143–159.

A longitudinal investigation of reading outcomes in children with language impairments. Catts, H. W., Fey, M. E., Tomblin, J. B., & Zhang, X. 45(6), 1142–1157.

Methods for characterizing participants' nonmainstream dialect use in child language research. Oetting, J. B., & McDonald, J. L. 45(3), 505–518.

Morehead & Ingram (1973) revisited. Ingram, D., & Morehead, D. 45(3), 559–563.

Narrative content as described by individuals with Down syndrome and typically developing children. Miles, S., & Chapman, R. S. 45(1), 175–189.

Narrative discourse in young children with histories of early corrective heart surgery. Hemphill, L., Uccelli, P., Winner, K., Chang, C-J., & Bellinger, D. 45(2), 318–331.

Nominal versus verbal morpheme use in late talkers at ages 3 and 4. Rescorla, L., & Roberts, J. 45(6), 1219–1231.

Predicting longitudinal change in language production and comprehension in individuals with Down syndrome: Hierarchical linear modeling. Chapman, R. S., Hesketh, L. J., & Kistler, D. J. 45(5), 902–915.

Production operations and the use of nonfinite verbs by children with specific language impairment. Leonard, L. B., Miller, C. A., Deevy, P., Rauf, L., Gerber, E., & Charest, M. 45(4), 744–758.

Profiles of grammatical morphology and sentence imitation in children with specific language impairment and Down syndrome. Eadie, P. A., Fey, M. E., Douglas, J. M., & Parsons, C. L. 45(4), 720–732.

Self-esteem in children with specific language impairment. Jerome, A. C., Fujiki, M., Brinton, B., & James, S. L. 45(4), 700–714.

Semantic representation and naming in children with specific language impairment. McGregor, K. K., Newman, R. M., Reilly, R. M., & Capone, N. C. 45(5), 998–1014.

Short-term auditory memory in children using cochlear implants and its relevance to receptive language. Dawson, P. W., Busby, P. A., McKay, C. M., & Clark, G. M. 45(4), 789–801.

Stability of behavioral ratings of children with SLI. Redmond, S. M., & Rice, M. L. 45(1), 190–201.

Use of the Language Development Survey (LDS) in a national probability sample of children 18 to 35 months old. Rescorla, L., & Achenbach, T. M. 45(4), 733–743.

Validity and reliability of the Communication and Symbolic Behavior Scales Developmental Profile with very young children. Wetherby, A. M., Allen, L., Cleary, J., Kublin, K., & Goldstein, H. 45(6), 1202–1218.

Young children with specific language impairment and their numerical cognition. Arvedson, P. J. 45(5), 970–982.

Learning Disabilities

A longitudinal investigation of reading outcomes in children with language impairments. Catts, H. W., Fey, M. E., Tomblin, J. B., & Zhang, X. 45(6), 1142–1157.

Language Disorders in Mental Retardation

Effects of prelinguistic milieu teaching and parent responsivity education on dyads involving children with intellectual disabilities. Yoder, P. J., & Warren, S. F. 45(6), 1158–1174.

Narrative content as described by individuals with Down syndrome and typically developing children. Miles, S., & Chapman, R. S. 45(1), 175–189.

Predicting longitudinal change in language production and comprehension in individuals with Down syndrome: Hierarchical linear modeling. Chapman, R. S., Hesketh, L. J., & Kistler, D. J. 45(5), 902–915.

Profiles of grammatical morphology and sentence imitation in children with specific language impairment and Down syndrome. Eadie, P. A., Fey, M. E., Douglas, J. M., & Parsons, C. L. 45(4), 720–732.

Language Disorders in Personality and Psychiatric Disturbances

Self-esteem in children with specific language impairment. Jerome, A. C., Fujiki, M., Brinton, B., & James, S. L. 45(4), 700–714.

Stability of behavioral ratings of children with SLI. Redmond, S. M., & Rice, M. L. 45(1), 190–201.

Use of the Language Development Survey (LDS) in a national probability sample of children 18 to 35 months old. Rescorla, L., & Achenbach, T. M. 45(4), 733–743.

Assessment and Intervention

Screening

Concurrent validity of caregiver/parent report measures of language for children who are learning both English and Spanish. Marchman, V. A., & Martínez-Sussmann, C. 45(5), 983–997.

A screening version of the Swedish Communicative Development Inventories designed for use with 18-month-old children. Eriksson, M., Westerlund, M., & Berglund, E. 45(5), 948–960.

Use of the Language Development Survey (LDS) in a national probability sample of children 18 to 35 months old. Rescorla, L., & Achenbach, T. M. 45(4), 733–743.

Validity and reliability of the Communication and Symbolic Behavior Scales Developmental Profile with very young children. Wetherby, A. M., Allen, L., Cleary, J., Kublin, K., & Goldstein, H. 45(6), 1202–1218.

Assessment

Adults' judgments of fictional story quality. Schneider, P., & Winship, S. 45(2), 372–383.

Concurrent validity of caregiver/parent report measures of language for children who are learning both English and Spanish. Marchman, V. A., & Martínez-Sussmann, C. 45(5), 983–997.

Discourse Comprehension Test performance of elders with dementia of the Alzheimer type. Welland, R. J., Lubinski, R., & Higginbotham, D. J. 45(6), 1175–1187.

Grammatical morpheme production in 4-year-old children. Balason, D. V., & Dollaghan, C. A. 45(5), 961–969.

Responding to joint attention and language development: A comparison of target locations. Delgado, C. E. F., Mundy, P., Crowson, M., Markus, J., Yale, M., & Schwartz, H. 45(4), 715–719.

A screening version of the Swedish Communicative Development Inventories designed for use with 18-month-old children. Eriksson, M., Westerlund, M., & Berglund, E. 45(5), 948–960.
Semantic representation and naming in young children. McGregor, K. K., Friedman, R. M., Reilly, R. M., & Newman, R. M. 45(2), 332–346.
Stability of behavioral ratings of children with SLI. Redmond, S. M., & Rice, M. L. 45(1), 190–201.
Story narratives of adults with closed head injury and non-brain-injured adults: Influence of socioeconomic status, elicitation task, and executive functioning. Coelho, C. A. 45(6), 1232–1248.
Validity and reliability of the Communication and Symbolic Behavior Scales Developmental Profile with very young children. Wetherby, A. M., Allen, L., Cleary, J., Kublin, K., & Goldstein, H. 45(6), 1202–1218.

Intervention

Cultural differences in beliefs and practices concerning talk to children. Johnston, J. R., & Wong, M.-Y. A. 45(5), 916–926.
Effects of prelinguistic milieu teaching and parent responsivity education on dyads involving children with intellectual disabilities. Yoder, P. J., & Warren, S. F. 45(6), 1158–1174.
An evaluation of the facilitative effects of inverted yes-no questions on the acquisition of auxiliary verbs. Fey, M. E., & Loeb, D. F. 45(1), 160–174.
Lexical organization and phonological change in treatment. Morrisette, M. L., & Gierut, J. A. 45(1), 143–159.
Listener comprehension of severely dysarthric speech: Effects of linguistic cues and stimulus cohesion. Hustad, K. C., & Beukelman, D. R. 45(3), 545–558.

Nonspeech Communications Systems

Listener comprehension of severely dysarthric speech: Effects of linguistic cues and stimulus cohesion. Hustad, K. C., & Beukelman, D. R. 45(3), 545–558.

Cross-Cultural

Cultural differences in beliefs and practices concerning talk to children. Johnston, J. R., & Wong, M.-Y. A. 45(5), 916–926.

Language Comprehension

Listener comprehension of severely dysarthric speech: Effects of linguistic cues and stimulus cohesion. Hustad, K. C., & Beukelman, D. R. 45(3), 545–558.

Narrative Discourse

Narrative discourse in young children with histories of early corrective heart surgery. Hemphill, L., Uccelli, P., Winner, K., Chang, C-J., & Bellinger, D. 45(2), 318–331.

Prelinguistic Communication

Effects of prelinguistic milieu teaching and parent responsivity education on dyads involving children with intellectual disabilities. Yoder, P. J., & Warren, S. F. 45(6), 1158–1174.

Talker Recognition

Children's recognition of cartoon voices. Spence, M. J., Rollins, P. R., & Jerger, S. 45(1), 214–222.

Speech

Nature of Normal Speech

Development of Speech and Voice

Articulatory movements in adolescents: Evidence for protracted development of speech motor control processes. Walsh, B., & Smith, A. 45(6), 1119–1133.
Coarticulation and formant transition rate in young children who stutter. Chang, S-E., Ohde, R. N., & Conture, E. G. 45(4), 676–688.
Developmental change in variability of lip muscle activity during speech. Wohlert, A. B., & Smith, A. 45(6), 1077–1087.
The dynamics of interlip coupling in speakers with a repaired unilateral cleft-lip history. van Lieshout, P. H. H. M., Rutjens, C. A. W., & Spauwen, P. H. M. 45(1), 5–19.
Fundamental frequency onset and offset behavior: A comparative study of children and adults. Robb, M. P., & Smith, A. B. 45(3), 446–456.
Sensorimotor adaptation of speech I: Compensation and adaptation. Houde, J. F., & Jordan, M. I. 45(2), 295–310.
The sequential development of jaw and lip control for speech. Green, J. R., Moore, C. A., & Reilly, K. J. 45(1), 66–79.

Anatomy and Physiology of the Adult Speech System

Articulatory control of vowel length for contiguous jaw cycles: The effects of speaking rate and phonetic context. Shaiman, S. 45(4), 663–675.
Defining and measuring speech movement events. Tasko, S. M., & Westbury, J. R. 45(1), 127–142.
The dynamics of interlip coupling in speakers with a repaired unilateral cleft-lip history. van Lieshout, P. H. H. M., Rutjens, C. A. W., & Spauwen, P. H. M. 45(1), 5–19.
Estimating blood Pco_2 during speaking: A postscript on Hoit and Lohmeier (2000). Russell, B., Cerny, F., & Stathopoulos, E. 45(6), 1134–1137.
Muscle, adipose, and connective tissue variations in intrinsic musculature of the adult human tongue. Miller, J. L., Watkin, K. L., & Chen, M. F. 45(1), 51–65.
No postscript needed: A post postscript on Russell, Cerny, and Stathopoulos (2002). Hoit, J. D., & Lohmeier, H. L. 45(6), 1138–1141.
Speaking and breathing in high respiratory drive. Bailey, E. F., & Hoit, J. D. 45(1), 89–99.
Sustaining a constant effort by the tongue and hand: Effects of acute fatigue. Solomon, N. P., Drager, K. D. R., & Luschei, E. S. 45(4), 613–624.
Tongues and lips without jaws: A comparison of methods for decoupling speech movements. Westbury, J. R., Lindstrom, M. J., & McClean, M. D. 45(4), 651–662.

Perception of Speech

Across-frequency comparison of temporal speech information by listeners with normal and impaired hearing. Healy, E. W., & Bacon, S. P. 45(6), 1262–1275.
Children's recognition of cartoon voices. Spence, M. J., Rollins, P. R., & Jerger, S. 45(1), 214–222.
Direct magnitude estimates of speech intelligibility in dysarthria: Effects of a chosen standard. Weismer, G., & Laures, J. S. 45(3), 421–433.
Direct magnitude estimation and interval scaling of hypernasality. Whitehill, T. L., Lee, A. S. Y., & Chun, J. C. 45(1), 80–88.
Direct magnitude estimation and interval scaling of naturalness and severity in tracheoesophageal (TE) speakers. Eadie, T. L., & Doyle, P. C. 45(6), 1088–1096.
Final consonant discrimination in children: Effects of phonological disorder, vocabulary size, and articulatory accuracy. Edwards, J., Fox, R. A., & Rogers, C. L. 45(2), 231–242.
Grammatical morphology and perception of synthetic and natural speech in children with specific language impairments. Evans, J. L., Viele, K., Kass, R. E., & Tang, F. 45(3), 494–504.
Intelligibility of modified speech for young listeners with normal and impaired hearing. Uchanski, R. M., Geers, A. E., & Protopapas, A. 45(5), 1027–1038.
Interaction of speech coders and atypical speech II: Effects on speech quality. Jamieson, D. G., Parsa, V., Price, M. C., & Till, J. 45(4), 689–699.
Lexical and talker effects on word recognition among native and non-native listeners with normal and impaired hearing. Takayanagi, S., Dirks, D. D., & Moshfegh, A. 45(3), 585–597.
Sensorimotor adaptation of speech I: Compensation and adaptation. Houde, J. F., & Jordan, M. I. 45(2), 295–310.
Speech synthesis using damped sinusoids. Hillenbrand, J. M., & Houde, R. A. 45(4), 639–650.

Speech and Voice Disorders

Articulation and Resonance Disorders

Direct magnitude estimates of speech intelligibility in dysarthria: Effects of a chosen standard. Weismer, G., & Laures, J. S. 45(3), 421–433.

Direct magnitude estimation and interval scaling of hypernasality. Whitehill, T. L., Lee, A. S. Y., & Chun, J. C. 45(1), 80–88.

Final consonant discrimination in children: Effects of phonological disorder, vocabulary size, and articulatory accuracy. Edwards, J., Fox, R. A., & Rogers, C. L. 45(2), 231–242.

Interaction of speech coders and atypical speech I: Effects on speech intelligibility. Jamieson, D. G., Parsa, V., Price, M. C., & Till, J. 45(3), 482–493.

Interaction of speech coders and atypical speech II: Effects on speech quality. Jamieson, D. G., Parsa, V., Price, M. C., & Till, J. 45(4), 689–699.

Lexical organization and phonological change in treatment. Morrisette, M. L., & Gierut, J. A. 45(1), 143–159.

Longitudinal changes in articulation rate and phonetic phrase length in children with speech delay. Flipsen, P., Jr. 45(1), 100–110.

Phonological progress during the first 2 years of stuttering. Paden, E. P., Ambrose, N. G., & Yairi, E. 45(2), 256–267.

The interaction of ambient frequency and feature complexity in the diphthong errors of children with phonological disorders. Stokes, S. F., Lau, J. T.-K., & Ciocca, V. 45(6), 1188–1201.

Verbal short-term memory in Down syndrome: A problem of memory, audition, or speech? Jarrold, C., Baddeley, A. D., & Phillips, C. E. 45(3), 531–544.

Craniofacial and Other Anomalies

Direct magnitude estimation and interval scaling of hypernasality. Whitehill, T. L., Lee, A. S. Y., & Chun, J. C. 45(1), 80–88.

The dynamics of interlip coupling in speakers with a repaired unilateral cleft-lip history. van Lieshout, P. H. H. M., Rutjens, C. A. W., & Spauwen, P. H. M. 45(1), 5–19.

Physiologically Based Speech Disorders

Acoustic and perceptual consequences of articulatory rate change in Parkinson disease. McRae, P. A., Tjaden, K., & Schoonings, B. 45(1), 35–50.

Changes in speech production in a child with a cochlear implant: Acoustic and kinematic evidence. Goffman, L., Ertmer, D. J., & Erdle, C. 45(5), 891–901.

Direct magnitude estimates of speech intelligibility in dysarthria: Effects of a chosen standard. Weismer, G., & Laures, J. S. 45(3), 421–433.

Prosodic control in severe dysarthria: Preserved ability to mark the question-statement contrast. Patel, R. 45(5), 858–870.

Speaking and breathing in high respiratory drive. Bailey, E. F., & Hoit, J. D. 45(1), 89–99.

Stuttering and Other Fluency Disturbances

Characteristics of speech disfluency and stuttering behaviors in 3- and 4-year-old children. Pellowski, M. W., & Conture, E. G. 45(1), 20–34.

Coarticulation and formant transition rate in young children who stutter. Chang, S-E., Ohde, R. N., & Conture, E. G. 45(4), 676–688.

Coarticulation and formant transition rate in young children who stutter. Chang, S-E., Ohde, R. N., & Conture, E. G. 45(4), 676–688.

Effects of category and rhyme decisions on sentence production. Bosshardt, H.-G., Ballmer, W., & de Nil, L. F. 45(5), 844–857.

Epidemiology of stuttering in the community across the entire life span. Craig, A., Hancock, K., Tran, Y., Craig, M., & Peters, K. 45(6), 1097–1105.

Phonological progress during the first 2 years of stuttering. Paden, E. P., Ambrose, N. G., & Yairi, E. 45(2), 256–267.

Stuttering frequency on content and function words in adults who stutter: A concept revisited. Dayalu, V. N., Kalinowski, J., Stuart, A., Holbert, D., & Rastatter, M. P. 45(5), 871–878.

Voice and Other Laryngeal Disorders

Acoustic cues to the voicing feature in tracheoesophageal speech. Searl, J. P., & Carpenter, M. A. 45(2), 282–294.

Acoustic variations in reading produced by speakers with spasmodic dysphonia pre-Botox injection and within early stages of post-Botox injection. Sapienza, C. M., Cannito, M. P., Murry, T., Branski, R., & Woodson, G. 45(5), 830–843.

Biological mechanisms underlying voice changes due to dehydration. Verdolini, K., Min, Y., Titze, I. R., Lemke, J., Brown, K., van Mersbergen, M., Jiang, J., & Fisher, K. 45(2), 268–281.

Botox treatment in adductor spasmodic dysphonia: A meta-analysis. Boutsen, F., Cannito, M. P., Taylor, M., & Bender, B. 45(3), 469–481.

Direct magnitude estimates of speech intelligibility in dysarthria: Effects of a chosen standard. Weismer, G., & Laures, J. S. 45(3), 421–433.

Direct magnitude estimation and interval scaling of naturalness and severity in tracheoesophageal (TE) speakers. Eadie, T. L., & Doyle, P. C. 45(6), 1088–1096.

The effect of anchors and training on the reliability of perceptual voice evaluation. Chan, K. M. K., & Yiu, E. M-L. 45(1), 111–126.

The influence of pitch and loudness changes on the acoustics of vocal tremor. Dromey, C., Warrick, P., & Irish, J. 45(5), 879–890.

Interaction of speech coders and atypical speech I: Effects on speech intelligibility. Jamieson, D. G., Parsa, V., Price, M. C., & Till, J. 45(3), 482–493.

Interaction of speech coders and atypical speech II: Effects on speech quality. Jamieson, D. G., Parsa, V., Price, M. C., & Till, J. 45(4), 689–699.

"Pitch" accent in alaryngeal speech. van Rossum, M. A., de Krom, G., Nooteboom, S. G., & Quené, H. 45(6), 1106–1118.

Voice amplification versus vocal hygiene instruction for teachers with voice disorders: A treatment outcomes study. Roy, N., Weinrich, B., Gray, S. D., Tanner, K., Toledo, S. W., Dove, H., Corbin-Lewis, K., & Stemple, J. C. 45(4), 625–638.

Assessment and Intervention

Assessment

Coarticulation and formant transition rate in young children who stutter. Chang, S-E., Ohde, R. N., & Conture, E. G. 45(4), 676–688.

Direct magnitude estimates of speech intelligibility in dysarthria: Effects of a chosen standard. Weismer, G., & Laures, J. S. 45(3), 421–433.

Direct magnitude estimation and interval scaling of hypernasality. Whitehill, T. L., Lee, A. S. Y., & Chun, J. C. 45(1), 80–88.

The effect of anchors and training on the reliability of perceptual voice evaluation. Chan, K. M. K., & Yiu, E. M-L. 45(1), 111–126.

Epidemiology of stuttering in the community across the entire life span. Craig, A., Hancock, K., Tran, Y., Craig, M., & Peters, K. 45(6), 1097–1105.

Acoustic Measures of Speech and Voice

Coarticulation and formant transition rate in young children who stutter. Chang, S-E., Ohde, R. N., & Conture, E. G. 45(4), 676–688.

Direct magnitude estimates of speech intelligibility in dysarthria: Effects of a chosen standard. Weismer, G., & Laures, J. S. 45(3), 421–433.

Fundamental frequency onset and offset behavior: A comparative study of children and adults. Robb, M. P., & Smith, A. B. 45(3), 446–456.

The influence of pitch and loudness changes on the acoustics of vocal tremor. Dromey, C., Warrick, P., & Irish, J. 45(5), 879–890.

Longitudinal changes in articulation rate

and phonetic phrase length in children with speech delay. Flipsen, P., Jr. 45(1), 100–110.

Intervention

Biological mechanisms underlying voice changes due to dehydration. Verdolini, K., Min, Y., Titze, I. R., Lemke, J., Brown, K., van Mersbergen, M., Jiang, J., & Fisher, K. 45(2), 268–281.

Botox treatment in adductor spasmodic dysphonia: A meta-analysis. Boutsen, F., Cannito, M. P., Taylor, M., & Bender, B. 45(3), 469–481.

Speaking and breathing in high respiratory drive. Bailey, E. F., & Hoit, J. D. 45(1), 89–99.

Voice amplification versus vocal hygiene instruction for teachers with voice disorders: A treatment outcomes study. Roy, N., Weinrich, B., Gray, S. D., Tanner, K., Toledo, S. W., Dove, H., Corbin-Lewis, K., & Stemple, J. C. 45(4), 625–638.

Instrumentation for Diagnosis, Treatment, and Research

Acoustic patterns of infant vocalizations expressing emotions and communicative functions. Papaeliou, C., Minadakis, G., & Cavouras, D. 45(2), 311–317.

Defining and measuring speech movement events. Tasko, S. M., & Westbury, J. R. 45(1), 127–142.

Electroglottographic evaluation of gender and vowel effects during modal and vocal fry phonation. Chen, Y., Robb, M. P., & Gilbert, H. R. 45(5), 821–829.

Estimating blood P_{CO_2} during speaking: A postscript on Hoit and Lohmeier (2000). Russell, B., Cerny, F., & Stathopoulos, E. 45(6), 1134–1137.

Muscle, adipose, and connective tissue variations in intrinsic musculature of the adult human tongue. Miller, J. L., Watkin, K. L., & Chen, M. F. 45(1), 51–65.

Sustaining a constant effort by the tongue and hand: Effects of acute fatigue. Solomon, N. P., Drager, K. D. R., & Luschei, E. S. 45(4), 613–624.

Epidemiology

Epidemiology of stuttering in the community across the entire life span. Craig, A., Hancock, K., Tran, Y., Craig, M., & Peters, K. 45(6), 1097–1105.

Postlaryngectomy Voice and Speech

Direct magnitude estimation and interval scaling of naturalness and severity in tracheoesophageal (TE) speakers. Eadie, T. L., & Doyle, P. C. 45(6), 1088–1096.

Speech Coding for Telecommunications

Interaction of speech coders and atypical speech II: Effects on speech quality. Jamieson, D. G., Parsa, V., Price, M. C., & Till, J. 45(4), 689–699.

Speech Coding

Interaction of speech coders and atypical speech I: Effects on speech intelligibility. Jamieson, D. G., Parsa, V., Price, M. C., & Till, J. 45(3), 482–493.

Speech Motor Control

Speaking and breathing in high respiratory drive. Bailey, E. F., & Hoit, J. D. 45(1), 89–99.

Speech Motor Control

The dynamics of interlip coupling in speakers with a repaired unilateral cleft-lip history. van Lieshout, P. H. H. M., Rutjens, C. A. W., & Spauwen, P. H. M. 45(1), 5–19.

Speech Synthesis

Speech synthesis using damped sinusoids. Hillenbrand, J. M., & Houde, R. A. 45(4), 639–650.

Swallowing

Kinematic strategies for hyoid movement in rapid sequential swallowing. Chi-Fishman, G., & Sonies, B. C. 45(3), 457–468.

Oropharyngeal swallow in younger and older women: Videofluoroscopic analysis. Logemann, J. A., Pauloski, B. R., Rademaker, A. W., & Kahrilas, P. J. 45(3), 434–445.

Professional and General Scientific Issues

Professional Affairs

Service Provision Models and Problems

Cultural differences in beliefs and practices concerning talk to children. Johnston, J. R., & Wong, M.-Y. A. 45(5), 916–926.

Research Issues and Methodologies

Methods for characterizing participants' nonmainstream dialect use in child language research. Oetting, J. B., & McDonald, J. L. 45(3), 505–518.

Statistical power in stuttering research: A tutorial. Jones, M., Gebski, V., Onslow, M., & Packman, A. 45(2), 243–255.

Title Index

Acoustic and perceptual consequences of articulatory rate change in Parkinson disease. McRae, P. A., Tjaden, K., & Schoonings, B. 45(1), 35–50.

Acoustic cues to the voicing feature in tracheoesophageal speech. Searl, J. P., & Carpenter, M. A. 45(2), 282–294.

Acoustic patterns of infant vocalizations expressing emotions and communicative functions. Papaeliou, C., Minadakis, G., & Cavouras, D. 45(2), 311–317.

Acoustic variations in reading produced by speakers with spasmodic dysphonia pre-Botox injection and within early stages of post-Botox injection. Sapienza, C. M., Cannito, M. P., Murry, T., Branski, R., & Woodson, G. 45(5), 830–843.

Across-frequency comparison of temporal speech information by listeners with normal and impaired hearing. Healy, E. W., & Bacon, S. P. 45(6), 1262–1275.

Adults' judgments of fictional story quality. Schneider, P., & Winship, S. 45(2), 372–383.

Articulatory control of vowel length for contiguous jaw cycles: The effects of speaking rate and phonetic context. Shaiman, S. 45(4), 663–675.

Articulatory movements in adolescents: Evidence for protracted development of speech motor control processes. Walsh, B., & Smith, A. 45(6), 1119–1133.

Auditory temporal processing performance of young adults with reading disorders. Walker, M. M., Shinn, J. B., Cranford, J. L., Givens, G. D., & Holbert, D. 45(3), 598–605.

Auditory training induces asymmetrical changes in cortical neural activity. Tremblay, K. L., & Kraus, N. 45(3), 564–572.

Balancing bilinguals II: Lexical comprehension and cognitive processing in children learning Spanish and English. Kohnert, K. J., & Bates, E. 45(2), 347–359.

Biological mechanisms underlying voice changes due to dehydration. Verdolini, K., Min, Y., Titze, I. R., Lemke, J., Brown, K., van Mersbergen, M., Jiang, J., & Fisher, K. 45(2), 268–281.

Botox treatment in adductor spasmodic dysphonia: A meta-analysis. Boutsen, F., Cannito, M. P., Taylor, M., & Bender, B. 45(3), 469–481.

Category-generation performance of bilingual children: The influence of condition, category, and language. Peña, E. D., Bedore, L. M., & Zlatic-Giunta, R. 45(5), 938–947.

Changes in hearing-aid benefit following 1 or 2 years of hearing-aid use by older adults. Humes, L. E., Wilson, D. L., Barlow, N. N., & Garner, C. 45(4), 772–782.

Changes in speech production in a child with a cochlear implant: Acoustic and kinematic evidence. Goffman, L., Ertmer, D. J., & Erdle, C. 45(5), 891–901.
Characteristics of speech disfluency and stuttering behaviors in 3- and 4-year-old children. Pellowski, M. W., & Conture, E. G. 45(1), 20–34.
Children's recognition of cartoon voices. Spence, M. J., Rollins, P. R., & Jerger, S. 45(1), 214–222.
Coarticulation and formant transition rate in young children who stutter. Chang, S-E., Ohde, R. N., & Conture, E. G. 45(4), 676–688.
A comparison of learning curves in natural and synthesized speech comprehension. Reynolds, M. E., Isaacs-Duvall, C., & Haddox, M. L. 45(4), 802–810.
A comparison of the speech understanding provided by acoustic models of fixed-channel and channel-picking signal processors for cochlear implants. Dorman, M. F., Loizou, P. C., Spahr, A. J., & Maloff, E. 45(4), 783–788.
Concurrent validity of caregiver/parent report measures of language for children who are learning both English and Spanish. Marchman, V. A., & Martínez-Sussmann, C. 45(5), 983–997.
Cultural differences in beliefs and practices concerning talk to children. Johnston, J. R., & Wong, M.-Y. A. 45(5), 916–926.
Defining and measuring speech movement events. Tasko, S. M., & Westbury, J. R. 45(1), 127–142.
Developmental change in variability of lip muscle activity during speech. Wohlert, A. B., & Smith, A. 45(6), 1077–1087.
Direct magnitude estimates of speech intelligibility in dysarthria: Effects of a chosen standard. Weismer, G., & Laures, J. S. 45(3), 421–433.
Direct magnitude estimation and interval scaling of hypernasality. Whitehill, T. L., Lee, A. S. Y., & Chun, J. C. 45(1), 80–88.
Direct magnitude estimation and interval scaling of naturalness and severity in tracheoesophageal (TE) speakers. Eadie, T. L., & Doyle, P. C. 45(6), 1088–1096.
Discourse Comprehension Test performance of elders with dementia of the Alzheimer type. Welland, R. J., Lubinski, R., & Higginbotham, D. J. 45(6), 1175–1187.
The dynamics of interlip coupling in speakers with a repaired unilateral cleft-lip history. van Lieshout, P. H. H. M., Rutjens, C. A. W., & Spauwen, P. H. M. 45(1), 5–19.
The effect of anchors and training on the reliability of perceptual voice evaluation. Chan, K. M. K., & Yiu, E. M-L. 45(1), 111–126.
Effects of category and rhyme decisions on sentence production. Bosshardt, H.-G., Ballmer, W., & de Nil, L. F. 45(5), 844–857.
Effects of prelinguistic milieu teaching and parent responsivity education on dyads involving children with intellectual disabilities. Yoder, P. J., & Warren, S. F. 45(6), 1158–1174.
Electroglottographic evaluation of gender and vowel effects during modal and vocal fry phonation. Chen, Y., Robb, M. P., & Gilbert, H. R. 45(5), 821–829.
Epidemiology of stuttering in the community across the entire life span. Craig, A., Hancock, K., Tran, Y., Craig, M., & Peters, K. 45(6), 1097–1105.
Erratum. 45(3), 493.
Erratum. 45(5), 1015.
Estimating blood Pco_2 during speaking: A postscript on Hoit and Lohmeier (2000). Russell, B., Cerny, F., & Stathopoulos, E. 45(6), 1134–1137.
An evaluation of the facilitative effects of inverted yes-no questions on the acquisition of auxiliary verbs. Fey, M. E., & Loeb, D. F. 45(1), 160–174.
Final consonant discrimination in children: Effects of phonological disorder, vocabulary size, and articulatory accuracy. Edwards, J., Fox, R. A., & Rogers, C. L. 45(2), 231–242.
Fundamental frequency onset and offset behavior: A comparative study of children and adults. Robb, M. P., & Smith, A. B. 45(3), 446–456.
Grammatical morpheme production in 4-year-old children. Balason, D. V., & Dollaghan, C. A. 45(5), 961–969.
Grammatical morphology and perception of synthetic and natural speech in children with specific language impairments. Evans, J. L., Viele, K., Kass, R. E., & Tang, F. 45(3), 494–504.
Influence of hearing loss on the perceptual strategies of children and adults. Pittman, A. L., Stelmachowicz, P. G., Lewis, D. E., & Hoover, B. M. 45(6), 1276–1284.
The influence of pitch and loudness changes on the acoustics of vocal tremor. Dromey, C., Warrick, P., & Irish, J. 45(5), 879–890.
Intelligibility of modified speech for young listeners with normal and impaired hearing. Uchanski, R. M., Geers, A. E., & Protopapas, A. 45(5), 1027–1038.
The interaction of ambient frequency and feature complexity in the diphthong errors of children with phonological disorders. Stokes, S. F., Lau, J. T.-K., & Ciocca, V. 45(6), 1188–1201.
Interaction of speech coders and atypical speech I: Effects on speech intelligibility. Jamieson, D. G., Parsa, V., Price, M. C., & Till, J. 45(3), 482–493.
Interaction of speech coders and atypical speech II: Effects on speech quality. Jamieson, D. G., Parsa, V., Price, M. C., & Till, J. 45(4), 689–699.
Judgments of idiom familiarity and transparency: A comparison of children and adolescents. Nippold, M. A., & Taylor, C. L. 45(2), 384–391.
Kinematic strategies for hyoid movement in rapid sequential swallowing. Chi-Fishman, G., & Sonies, B. C. 45(3), 457–468.
Language and reading outcomes to age 9 in late-talking toddlers. Rescorla, L. 45(2), 360–371.
Lexical and talker effects on word recognition among native and non-native listeners with normal and impaired hearing. Takayanagi, S., Dirks, D. D., & Moshfegh, A. 45(3), 585–597.
Lexical diversity in the spontaneous speech of children with specific language impairment: Application of D. Owen, A. J., & Leonard, L. B. 45(5), 927–937.
Lexical organization and phonological change in treatment. Morrisette, M. L., & Gierut, J. A. 45(1), 143–159.
Listener comprehension of severely dysarthric speech: Effects of linguistic cues and stimulus cohesion. Hustad, K. C., & Beukelman, D. R. 45(3), 545–558.
Listening effort and fatigue in school-age children with and without hearing loss. Hicks, C. B., & Tharpe, A. M. 45(3), 573–584.
Longitudinal changes in articulation rate and phonetic phrase length in children with speech delay. Flipsen, P., Jr. 45(1), 100–110.
A longitudinal investigation of reading outcomes in children with language impairments. Catts, H. W., Fey, M. E., Tomblin, J. B., & Zhang, X. 45(6), 1142–1157.
Methods for characterizing participants' nonmainstream dialect use in child language research. Oetting, J. B., & McDonald, J. L. 45(3), 505–518.
Modulation detection interference in listeners with normal and impaired hearing. Bacon, S. P., & Opie, J. M. 45(2), 392–402.
Morehead & Ingram (1973) revisited. Ingram, D., & Morehead, D. 45(3), 559–563.
Muscle, adipose, and connective tissue variations in intrinsic musculature of the adult human tongue. Miller, J. L., Watkin, K. L., & Chen, M. F. 45(1), 51–65.
Narrative content as described by individuals with Down syndrome and typically developing children. Miles, S., & Chapman, R. S. 45(1), 175–189.
Narrative discourse in young children with histories of early corrective heart surgery. Hemphill, L., Uccelli, P., Winner, K., Chang, C-J., & Bellinger, D. 45(2), 318–331.
Nominal versus verbal morpheme use in late talkers at ages 3 and 4. Rescorla, L., & Roberts, J. 45(6), 1219–1231.
Oropharyngeal swallow in younger and older women: Videofluoroscopic analysis. Logemann, J. A., Pauloski, B. R.,

Rademaker, A. W., & Kahrilas, P. J. 45(3), 434–445.
Phoneme recognition and confusions with multichannel cochlear implants: Vowels. Välimaa, T. T., Määttä, T. K., Löppönen, H. J., & Sorri, M. J. 45(5), 1039–1054.
Phoneme recognition and confusions with multichannel cochlear implants: Consonants. Välimaa, T. T., Määttä, T. K., Löppönen, H. J., & Sorri, M. J. 45(5), 1055–1069.
Phonological progress during the first 2 years of stuttering. Paden, E. P., Ambrose, N. G., & Yairi, E. 45(2), 256–267.
Picture naming in early sequential bilinguals: A 1-year follow-up. Kohnert, K. 45(4), 759–771.
"Pitch" accent in alaryngeal speech. van Rossum, M. A., de Krom, G., Nooteboom, S. G., & Quené, H. 45(6), 1106–1118.
No postscript needed: A post postscript on Russell, Cerny, and Stathopoulos (2002). Hoit, J. D., & Lohmeier, H. L. 45(6), 1138–1141.
Predicting longitudinal change in language production and comprehension in individuals with Down syndrome: Hierarchical linear modeling. Chapman, R. S., Hesketh, L. J., & Kistler, D. J. 45(5), 902–915.
Presbyacusis and the auditory brainstem response. Boettcher, F. A. 45(6), 1249–1261.
Production operations and the use of nonfinite verbs by children with specific language impairment. Leonard, L. B., Miller, C. A., Deevy, P., Rauf, L., Gerber, E., & Charest, M. 45(4), 744–758.
Profiles of grammatical morphology and sentence imitation in children with specific language impairment and Down syndrome. Eadie, P. A., Fey, M. E., Douglas, J. M., & Parsons, C. L. 45(4), 720–732.
Prosodic control in severe dysarthria: Preserved ability to mark the question-statement contrast. Patel, R. 45(5), 858–870.
Responding to joint attention and language development: A comparison of target locations. Delgado, C. E. F., Mundy, P., Crowson, M., Markus, J., Yale, M., & Schwartz, H. 45(4), 715–719.
A screening version of the Swedish Communicative Development Inventories designed for use with 18-month-old children. Eriksson, M., Westerlund, M., & Berglund, E. 45(5), 948–960.
Self-esteem in children with specific language impairment. Jerome, A. C., Fujiki, M., Brinton, B., & James, S. L. 45(4), 700–714.
Semantic representation and naming in children with specific language impairment. McGregor, K. K., Newman, R. M., Reilly, R. M., & Capone, N. C. 45(5), 998–1014.
Semantic representation and naming in young children. McGregor, K. K., Friedman, R. M., Reilly, R. M., & Newman, R. M. 45(2), 332–346.
Sensorimotor adaptation of speech I: Compensation and adaptation. Houde, J. F., & Jordan, M. I. 45(2), 295–310.
The sequential development of jaw and lip control for speech. Green, J. R., Moore, C. A., & Reilly, K. J. 45(1), 66–79.
Short-term auditory memory in children using cochlear implants and its relevance to receptive language. Dawson, P. W., Busby, P. A., McKay, C. M., & Clark, G. M. 45(4), 789–801.
Speaking and breathing in high respiratory drive. Bailey, E. F., & Hoit, J. D. 45(1), 89–99.
Spectral contributions to the benefit from spatial separation of speech and noise. Dubno, J. R., Ahlstrom, J. B., & Horwitz, A. R. 45(6), 1297–1310.
Speech segmentation by native and nonnative speakers: The use of lexical, syntactic, and stress-pattern cues. Sanders, L. D., Neville, H. J., & Woldorff, M. G. 45(3), 519–530.
Speech synthesis using damped sinusoids. Hillenbrand, J. M., & Houde, R. A. 45(4), 639–650.
Stability of behavioral ratings of children with SLI. Redmond, S. M., & Rice, M. L. 45(1), 190–201.
Statistical power in stuttering research: A tutorial. Jones, M., Gebski, V., Onslow, M., & Packman, A. 45(2), 243–255.
Story narratives of adults with closed head injury and non-brain-injured adults: Influence of socioeconomic status, elicitation task, and executive functioning. Coelho, C. A. 45(6), 1232–1248.
Stuttering frequency on content and function words in adults who stutter: A concept revisited. Dayalu, V. N., Kalinowski, J., Stuart, A., Holbert, D., & Rastatter, M. P. 45(5), 871–878.
Summary publication statistics for 1998–2000. Humes, L. E. 45(2), 229–230.
Sustaining a constant effort by the tongue and hand: Effects of acute fatigue. Solomon, N. P., Drager, K. D. R., & Luschei, E. S. 45(4), 613–624.
Temporal integration of sinusoidal increments in the absence of absolute energy cues. Formby, C., Heinz, M. G., & Aleksandrovsky, I. V. 45(6), 1285–1296.
Thresholds of discomfort for complex stimuli: Acoustic and sound-quality predictors. Warner, R. L., & Bentler, R. A. 45(5), 1016–1026.
Tongues and lips without jaws: A comparison of methods for decoupling speech movements. Westbury, J. R., Lindstrom, M. J., & McClean, M. D. 45(4), 651–662.
Understanding bilingualism and its impact on speech audiometry. von Hapsburg, D., & Peña, E. D. 45(1), 202–213.
Use of the Language Development Survey (LDS) in a national probability sample of children 18 to 35 months old. Rescorla, L., & Achenbach, T. M. 45(4), 733–743.
Validity and reliability of the Communication and Symbolic Behavior Scales Developmental Profile with very young children. Wetherby, A. M., Allen, L., Cleary, J., Kublin, K., & Goldstein, H. 45(6), 1202–1218.
Verbal short-term memory in Down syndrome: A problem of memory, audition, or speech? Jarrold, C., Baddeley, A. D., & Phillips, C. E. 45(3), 531–544.
Visual attention in children with normal hearing, children with hearing aids, and children with cochlear implants. Tharpe, A. M., Ashmead, D. H., & Rothpletz, A. M. 45(2), 403–413.
Voice amplification versus vocal hygiene instruction for teachers with voice disorders: A treatment outcomes study. Roy, N., Weinrich, B., Gray, S. D., Tanner, K., Toledo, S. W., Dove, H., Corbin-Lewis, K., & Stemple, J. C. 45(4), 625–638.
Young children with specific language impairment and their numerical cognition. Arvedson, P. J. 45(5), 970–982.
